Profile

Front-end Developer (React / TypeScript) with 6 years' experience in the FinTech sector. I recently developed key features for a SaaS platform targeting video game studios, building the user interface, real-time dashboards, and e-commerce flows. I thrive in fast-paced development environments and excel at quickly mastering new tech stacks.

Work Experience

Product Engineer

Sanlo.io · December 2022 - May 2025

- Owned the front-end business logic for the Sanlo platform, using React and TypeScript.
- Developed a no-code e-commerce builder for selling virtual goods outside of the App Stores, creating a new revenue stream.
- Participated in AI hackathons to explore and validate product ideas, synthesizing key learnings to inform the product roadmap.

Sr Frontend Engineer

Spark Digital · August 2021 - July 2022

- Engineered and shipped robust front-end solutions for major U.S. clients in the wedding-tech space (The Knot, The Bash).
- Played a key role in driving code optimization initiatives, improving application performance and maintainability.
